Heads up, running lighthouse in any **serverless** or burstable cloud environment is going to give you crazy variance in the **performance** metrics.

Run on dedicated hardware if you're using this for perf measurement.

**World Wide Technology** @wwt_inc · Dec 1

While **serverless** architecture, also known as function-as-a-service, is not widespread yet, it is making significant strides in becoming more mainstream. Let's look at:

- 1 pricing
- 2 scalability
- 3 **performance**
